

## THE SIMPLE GUIDE TO YOUR PET INSURANCE POLICY

Here is everything you need to know about your pet's insurance policy and cover.

This is your go-to guide to understanding the basics of insuring your pet – it's important - so make sure you read and understand all of it.

We want to make pet insurance easy to understand, easy to apply and easy to use for you.

If something doesn't make sense - ask us! If there's anything we are more passionate about than insurance - it's you!

***FYI - For a more indepth document (the fine print), have a look at our legals docs on our site, as well as our policy wording doc here***

### VET VISITS

#### WHAT YOU ARE COVERED FOR: ✓

- 4 visits to your vet each year
- These include - Consultations, radiology (x-rays), pathology (blood tests) and minor dental procedures

***FYI - Vet visits that take place in the space of 14 days for the same issue (e.g. If your pet has a tummy bug that doesn't go away) will be covered as 1 claim.***

#### WHAT YOU ARE NOT COVERED FOR: ✗

- The special diet food your vet said your pet has to have (prescribed food)
- Cosmetic procedures - Tail docking, dewclaw removal, skinfold resection or ear cropping
- If your pet is obese
- If your pet is having issues with their behaviour
- Breeding and birth problems (and anything related to these)
- Immunotherapy and cell-replacement therapies (stem cell therapy)
- Fancy treatments such as acupuncture, rehabilitation therapy, physiotherapy, hydrotherapy

## ROUTINE CARE

### WHAT YOU ARE COVERED FOR: ✓

- Sterilisation
- Consultations for and/or vaccinations, deworming, flea control
- Anal gland expression
- Teeth scaling and polishing - Give us a smile!

### WHAT YOU ARE NOT COVERED FOR: ✗

- Glitz and glam - Accessories like food, beds, toys, leashes, etc.

## KENNEL

### WHAT YOU ARE COVERED FOR: ✓

- When you are unable to take care of your pet due to your unexpected hospitalisation that wasn't your fault.

### WHAT YOU ARE NOT COVERED FOR: ✗

- Hospitalisation that was your fault - due to alcoholism, drug abuse or addiction, attempted suicide or self-inflicted injuries

## ACCIDENT

### SAY WHAT?

Accidents are the stuff you didn't see coming - when your pet is involved in an accident, for example - gets hit by a car and requires you to immediately rush him or her to the vet.

To be considered an accident, it needs to have resulted in an injury (bruises, scrapes and other bodily harm). Accidents do not include issues that have developed over time such as bone issues or sores on the pet's body.

## WHAT YOU ARE COVERED FOR: ✓

- Things you can't predict - like burns or electrocution, car accidents, falls from a height, actions of another animal, poisoning, near drowning or embedded foreign bodies - when Bruno swallows a rock or something - The removal of gastric foreign bodies is limited to 1 per pet per year
- Trauma that results in fractured bones, lacerations, abrasions, punctures or wounds, gastric torsion (twisting of the stomach)
- Burial/cremation/euthanasia cover included for up to R1500

## WHAT YOU ARE NOT COVERED FOR: ✗

- Ligament injuries because of a degenerative (gets worse over time) disorder and/or congenital (born with this condition) or hereditary (inherited from parents) conditions - please note that even if you did not know your pet had one of these conditions, they will still not be covered under accident cover.

## THIS BIT'S IMPORTANT:

- When your pet is in an accident and needs surgery for joint issues such as cruciate ligament repair, hip replacement and luxating patella, this is how your cover will work:
- Month 1 to 6: We will cover 25% of your bill according to your limit
- Month 7 to 12: We will cover 50% of your bill according to your limit

## SAY WHAT?

A limit is the maximum amount of money we will pay you for a claim.

## ILLNESS

## SAY WHAT?

An illness is an issue (disease or sickness) that started after your cover began. If your pet's illness comes back in a 6 month period, then it will be covered as part of the initial illness claim and of course, is under your cover limit (the amount we pay for).

## WHAT YOU ARE COVERED FOR: ✓

- Treatment that needs an overnight stay or surgery (this overnight stay needs to be suggested by your vet and not something you think is a good idea)
- Burial/cremation/euthanasia cover included for up to R1500

## WHAT YOU ARE NOT COVERED FOR: X

- Dentistry or teeth related treatment/procedures
- Conditions that result from not vaccinating your pet
- Pregnancy and related conditions

## WAITING PERIODS

### SAY WHAT?

During this time you cannot claim.

A waiting period starts as soon as you take out your policy and is the amount of days that has to pass before you can claim.

1. Vet visits: 30 days (14 day waiting period in between vet visits)
2. Routine Care: 30 days
3. Kennel Cover: 3 months
4. Accident Cover: None
5. Illness Cover: 3 months

## THIS BIT'S IMPORTANT FOR ILLNESS COVER

## THE BELOW CONDITIONS ARE NOT COVERED FOR THE FIRST 12 MONTHS: X

### DOGS: X

- Congenital (disease your pet is born with), Hereditary (inherited condition from parents) Pre-existing (existed before your policy started) conditions and Spaying/Neutering indicated due to a specific medical condition
