

*Welcome and thank you for joining the Oneplan Health Client Referral Program, where we pay you cash straight onto your Onecard for referring family and friends.*

You believe that keeping your health covered is important, and making sure that when you or your family are sick you have the cover in place to help you get better quickly.

Well, Oneplan now gives you the tools to allow your friends and family to get a quote for their health cover too and what's even more awesome, you get rewarded for it.

## Lets talk about how it works:

- You've taken the first step by opting in. Yayy!
- An encoded link will be SMS'd to you for you to copy and share / broadcast to all your friends and family. Its already written for you so you just need to forward or copy and send.
- The link includes your policy number "in the invisible background" so that we can track successful referrals received from your friends and family.
- Your friend or family member will receive the link to click and open. They will receive information on our plans and a contact form to fill out if they want us to call them for a quote.

## Lets talk about how you get sharing with your unique referral link:

- You can create a whats app broadcast list to your phone contacts
- You can e-mail your friends as a BCC group,
- You can send SMS's
- You can send and share your link on Social Media – Instagram or Facebook.

## Lets talk about the rewards

- We will pay you R50 for every successful referral received straight onto your Onecard
- You can use your reward funds on whatever you want
- You can reset your Onecard pin and check your card balance in the Oneplan App under My Cards.

**So get sharing and let's make sure more South Africans are on Oneplan Affordable Health Insurance.**
